

Artist's Statement : Digital Self Portraits

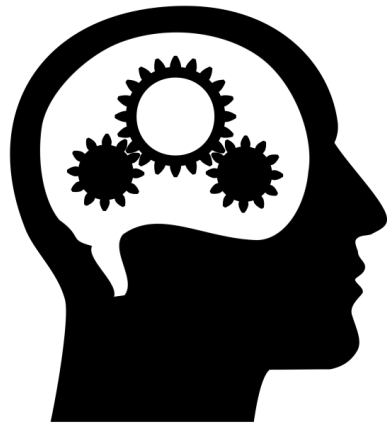

The Artist's Statement is your chance to give some context to your work - to give the viewer a lens through which to interpret your piece.

In your Artist's Statement you can describe what you are trying to communicate about yourself.

You can discuss the images that you combined and the tools/techniques/processes that you used to manipulate and combine them into your final image.

You can use your Artist's Statement to describe what you learned about photo editing, about using Pixlr and of course, about depicting yourself.

Try and use words from the word bank in your discussion.

Technical Requirements: 1 page maximum, Size 11-12 font

Word Bank:

These are just SOME of the words we touched on in this unit. It is NOT exhaustive.
